

# Our Focus is the Diversity population in clinical trials

We increase the enrollment of the patient communities which are underrepresented in clinical research studies. Our patient focus is with adult and pediatric Hispanic and African American communities in the Virginia, Maryland, and Washington DC.

Our communities are key to the success of the Future of Medicine.

**Quality:** to improve the completeness and quality of demographic subgroup data;

*WE recognize the importance of FDASIA 907*

**Transparency:** to improve the public availability of demographic subgroup data

**Participation:** to identify barriers to subgroup enrollment in clinical trials and employ strategies to encourage greater participation;

## Equipment & Capabilities

- Fully equipped exam rooms
- CLIA waiver lab
- GDUFA
- Federal wide Assurance (FWA)
- EKG machine
- Centrifuges
- Vitals equipment - Digital and Manual
- Scales- Digital
- Freezers at -20 degrees and -70 degrees

- Dry ice
- Stadiometer
- Double locked drug room with locked refrigerator
- Access to X-ray, MRI, DXA, Ultrasound
- SOP's
- Source document templates
- High-speed internet access
- Power outage alarm
